Health and Wellness Tip for January

One thing none of us cannot control is getting older. It happens every day. We can control how we age. Here are some tips on helping our brains & our hearts age well:

- Give your brain, or your memory, a boost by varying your activities (try brushing your teeth with your non-dominant hand), socializing and engaging in hobbies (reading, gardening, or even better learning a new skill)
- Monitor your blood pressure, maintain regular checkups and chose heart healthy food options
- Maintain healthy sleeping patterns, engage in regular physical activity and practice quality eating habits

Follow these foundations of healthy aging and welcome each day, month and year with vitality and good health!
