February 2021

Dear Prospective Candidates:

I am pleased you are considering serving the Columbia community by seeking the opportunity to become a member of Columbia Association's (CA) Board of Directors.

I would like to invite you to attend a virtual information session ("session") for prospective candidates on Saturday, 20 February 2021, starting at 10:00 a.m. Information on how to access the event may be found on the following link:

<https://www.columbiaassociation.org/candidates>

The session is an opportunity for prospective candidates to hear from the chair of CA's Board of Directors, CA's President/CEO and Vice President/CFO, CA's General Counsel, and a representative from the village community associations. We believe you will leave the session having learned more about CA, including its outreach into the community – directly and through our work with other organizations, such as the 10 village community associations; the role of CA's Board members; and how service on the CA Board impacts the Columbia community and beyond. Our goal in the session is to have a conversation with you, including addressing your questions about this opportunity so that you can make an informed decision about running for election to the CA Board of Directors.

Thank you for your interest in Columbia Association. Your time and consideration are appreciated, and I hope to meet you virtually at the session on 20 February 2021.

Sincerely,

Milton W. Matthews
President/CEO
