Health and Wellness Tip for March

Like many others, you may have been avoiding doctor offices, or any offices for that matter, during the pandemic. Now that vaccinations are rolling out and it has been a year, it is important to resume your tests and screenings.

If you've put off routine tests such as your regular mammogram, colonoscopy, dermatologic exams, and other tests based on your individual risk factors, it's a good time to get back on schedule. The right tests can help give you and your doctors early warning if your health is changing. It's also important to maintain regular appointments such as teeth cleanings and an annual physical.

This information is provided by the Wilde Lake Health and Wellness Committee. For more information, contact Laura Torres, Chair, at lmt4941@yahoo.com.
