**Volunteers Needed!**

Are you interested in helping to keep Wilde Lake an attractive place to live?

We are looking for volunteers to serve on the Resident Architectural Committee (RAC). Members work with their committee colleagues to review applications for exterior alterations, visit properties to assess the impact of the architectural changes, and attend two online meetings

each month. It is likely that you have already participated in this process as an applicant. It is an excellent way to meet fellow Wilde Lake residents and contribute to the community. Please contact Carl McKinney, Covenant Advisor, at [covenants@wildelake.org](mailto:covenants@wildelake.org) for details. Thank you!

**Funding the Future in Symphony Woods**

***Funding park beautification, watershed improvements, and green job training in Downtown Columbia***

In 2021, a new community-driven concept plan for Symphony Woods was approved to make our lovely woods a place for everyone to come and enjoy nature and art. The implementation of this concept plan begins with

the installation of conservation landscaping. Planting colorful borders that will not only beautify the grounds but will help to improve the watershed.

The Inner Arbor Trust and Howard EcoWorks have partnered to beautify Symphony Woods, improve the watershed, and provide green job training in the summer of 2021. The non-profit Inner Arbor Trust was formed to preserve and enhance Symphony Woods. Howard EcoWorks is a sustainable landscaping non-profit that provides training and career readiness for young adults and the under-served, including horticultural programming at the Howard County Department of Corrections. Together we will create this beautiful, sustainable vision for this treasured community space, all the while helping to create green jobs for our community members and second chances for deserving citizens to get back on their feet.

As non-profits without dedicated funding structures, the Trust and EcoWorks rely on grants and donations to fulfill their important missions. Coming out of the pandemic, funding is more challenging than ever before, and our organizations rely on donors. Our goal is to raise \$50,000 by May 30, 2021.

100% of your gift will go towards supporting the installation of conservation landscaping in Symphony Woods by Howard EcoWorks READY program green job trainees. Your gift will not only improve the environment but will invest in the development of green job skills and provide opportunities for workforce development.

## Health and Wellness Tip for May

Increasing our knowledge around mental health conditions can help us identify when a loved one is experiencing a mental health crisis. During Mental Health Awareness month, we want to be able to identify signs that someone we care about may need extra support and possibly professional help.

Anxiety disorder is different from everyday anxiety when it is more severe, more persistent, it interferes with the person's daily life and activities. Depression differs from sadness when it causes persistent feelings of sadness, there is a loss of interest in activities once enjoyed, the person is more irritable or suffers from physical problems and it interferes with the person's daily functioning.
